

# B2 Token

B2 is a deflationary utility token deployed on BNB Smart Chain. Inspired by the iconic B-2 Spirit stealth bomber, it combines simplicity and strength, aiming to build a community-driven ecosystem.

With a fixed supply of 21 million tokens, B2 is designed to incentivize long-term holding and reduce circulating supply over time through built-in deflationary mechanics.

## Overview

- **Max supply:** 21,000,000 B2
  - **Tax:** 4% on every transfer
  - **Burn:** 1% on every transfer
  - **Chain:** BNB Smart Chain (BEP20)
  - **Contract address:** 0x95a7fa18a399d1d4498c1662f8e60918f8d46b36
  - **No minting:** Fixed supply, no additional tokens can ever be minted
- 

## Official Wallets

- **Liquidity:** 0xc1eeba5f1d4cf00b7871a05663B890cf2C10a187 (Seeded with initial BNB/B2 pairing to provide trading liquidity)
  - **Vault:** 0x1b6e2676911F40B7754572A166A54cB2Cbb5d72e (Reserved for future liquidity additions, potential partnerships, and emergency funding)
  - **Founder Reserve:** 0x56Cd9120B63c9a07e45Fd2ef6729BA447c85Ed74 (Set aside as a long-term incentive for project growth and alignment)
- 

## Roadmap

- **Phase 1:** Token creation, contract verification, and initial liquidity pool setup
  - **Phase 2:** Public website and documentation
  - **Phase 3:** Expand community & marketing
  - **Phase 4:** Listing on token trackers (e.g., CoinGecko, CoinMarketCap)
  - **Phase 5:** Evaluate further development opportunities and DApp integrations
